

Project: SQA Bug Reporting					
Week: Week 1					
Name: Nimra Sabir Khan					
ID: DHC-6738					
Application: DemoQA					
Bug ID	Description	Severity	Priority	Steps to Reproduce	Status
BR01	Advertisements are overlapping and not properly dismissed after close action on the Forms page of DemoQA.	High	High	1. Open DemoQA website 2. Navigate to Forms page 3. Observe advertisements displayed on page 4. Click on close (X) button of ad 5. Observe message and page behavior 6. Repeat action or refresh page	Open

BR02	The form allows submission even when some fields are left empty. Validation is not applied consistently across all fields, which may lead to incomplete or incorrect data submission.	Medium	High	1. Open DemoQA website 2. Navigate to Forms → Practice Form 3. Fill some fields and leave others empty (e.g., Address or Picture) 4. Click on Submit button 5. Observe the behavior	Open
BR03	After submitting the form, a confirmation overlay appears displaying the entered details. However, the Close button on the overlay does not respond when clicked, preventing the user from closing it.	High	High	1. Open DemoQA website 2. Navigate to Forms → Practice Form 3. Fill the form and click Submit 4. Observe the confirmation overlay 5. Click on the Close button 6. Observe that the overlay does not close	Open

BR04	Web Tables page loads slowly and takes extra time to render data	Medium	Medium	1. Open Web Tables 2. Observe loading delay 3. Check rendering time	Open
BR05	Some buttons require multiple clicks due to UI lag or overlay interference	Low	Medium	1. Open Forms page 2. Click buttons 3. Observe inconsistent response	Open
